SKILLS

Software Development • Software Engineering • JavaScript • HTML • CSS • React • Redux • Ruby • Ruby-on-Rails • Flutter • Python • SQL • Node • Express • MongoDB • Firebase • C# • Java • C++ • Linux • Computer Science • Cloud • AWS • Cybersecurity • API • Database

PROFILE

A full stack web developer and UI/UX designer with experience architecting both frontend interfaces and backend API's to create functional, full scale applications.

A low maintenance team player. When given a responsibility, I make sure to get it done ahead of schedule and above expectations without needing my hand held.

What do I bring to the table? Passion, drive to improve, desire to learn, and meticulous attention to detail make me a valuable asset to any team.

What languages do I know? I'm proficient in JavaScript, CSS, Python, React.js, Ruby on Rails, Node.js, MongoDB, SQL and more. I love to code and learn quickly.

PROJECTS

Grocery Magix - www.grocerymagix.com -
Search through millions of recipes, pick your favorites and instantly generate a shopping list. Fully functional and responsive - built with React, Firebase Firestore, Firebase Auth, Redux and Vanilla CSS.

The Financial Tracker - www.thefinancialtracker.com -
Track your income, set a budget and visualize your saving goals. A fully functional and responsive personal finance tracker - built with React, Redux, Ruby & Ruby on Rails, PostgreSQL, Context API, SCSS/SASS and CSS.

My Simple Wardrobe - www.mysimplewardrobe.com -
A fully functional eCommerce store with Admin panel. Features include a wishlist system, review system, order history and Stripe checkout. Built with React, Node.js, Express.js, MongoDB, Redux, Styled Components, CSS and Stripe.

QUALIFICATIONS

- Able to code web pages from the ground up along with a working proficiency of the Git version control, Linux command line and file transfer (FTP) procedures.

- Fundamental understanding of mobile first design concepts, cross browser development, API implementation and search engine optimization (SEO).

- Well rounded debugging skills with an understanding of test driven development and experience with Agile and SCRUM
